Protection against organic gases and vapours (boiling point > 65 °C).

Experience a new dimension of comfort and safety in respiratory protection: The Dräger X-plore twinfilter series. Bearing in mind today's requirements for modern PPE, Dräger Safety has worked together with users from industry and the skilled professions to develop a new line of twin-filter respirators. It combines very successfully practicality of use with comfort. The use of new materials coupled with modern, attractive design guarantees maximum comfort and user acceptance.

The new Dräger X-plore filter range with a Dräger-specific bayonet connection offers many benefits:

practical and comfortable

- extensive range for all major applications
- fits Dräger X-plore half masks X-plore 3300 / 3500 and Dräger full face masks X-plore 5500
- white particle filter housing for easy identification
- option to upgrade a gas filter to a combination filter by simply adding a P1 or P2 pad
- also for use under visors

high level of user safety

- easy and safe handling
- CE-certified (EN 141:2000 re. EN 14387, EN 143:2000)
- Australian Standard AS /NZS 1716 certified (SAI Global)
- robust filter with a blue ABS plastic housing

- safe, quick and easy bayonet connection with clear guidance bringing the filter securely into place
- both filters inserted top-down for secure positioning
- VOICE filter selection help programme (www.draeger-safety.com/voice) and support phone
- over 70 years' experience in respiratory filter technology

very economical

- packaged in pairs (incl. instructions for use) for optimum protection of the unused filters
- shelflife (from date of production): gas and combination filters 6 years, particle filters 12 years, pads 3 years
- reduced costs due to compatibility and add-on pad options

Dräger Filters X-plore – an additional quality product from Dräger Safety.

FILTER COLOUR CODING

Colour	Filter Type	Main field of application
brown 	A	Organic gases and vapours (boiling point > 65 °C)
grey 	B	Inorganic gases and vapours
